upper crust of El Paso society. Once each year El Paso dances for local charity. This is the formal opening of the social season in El Paso and is the event de luxe of the winter season.

Since the last Charity ball was held, the new and novel in terpischorean things have come to be the accepted thing in certain stratas of local social life. The turkey trot, the fish walk, chicken scratch, the bunny hug and the famous tango and one step have been amous tango and one step have been the conclusion of the Argentine creation. A few of "those present" timidly tried the tango and found its tang all that had been claimed for it. The teafest over the teacups following the tango tryout was that the dance was a anced to the drone of darky music in nore than one El Paso home. The remult has been a general discussion of the propriety or impropriety of the so-alled new dances. To see just how aughty these dances really are, many matrons who have not attended dances for years have spruced up and gone with their husbands wearing dress suits which had been worn not often but ch had been worn not often, but

Quiet Little Meeting Held. All the agitation for and against the tango and its dancing relation crystalized in a quiet little meeting which was held one afternoon recently in the darkened parlor of an exclusive home in the exclusive residential district. The meeting was called to discuss the plan for formally and officially intro-

Fortunately or unfortunately, (according to the view at the opinion of the tange party is not that of the Charity ball going community. Many matrons declare that they will decline to go this year if the "animal dances" are permitted. What is more, they will send their tickets back without the accompanying \$5. The tangeers are defending their pet dance by saying that "everybody's doin" it" and the antitangeits say they will not attend the ball if the tange is admitted and permitted. UNSIGHTLY HAIR MADE BEAUTIFUL BY THE USE OF NEWBRO'S HERPICIDE

Many ladies are, and many more should be, ashamed when they look in a glass and see their hair.

The condition of some is almost a disgrace. It simply shows that while they may be scrupulously neat in every other way, they are careless abobut their hair.

Thin, scraggy, wispy hair generally indicates dandruff which is due to a germ. Newbro's Herpicide will remove the dandruff and keep the scalp clean and healthy. This permits the hair to grow naturally and lexuriantly and to take on that gloss and beauty which always follows the intelligent use of Herpicide. That annoying itching of the scalp which always goes with dandruff stops almost with the first application.

You may sometimes be offered something just as good" but you will be better satisfied if you insist upon by & Pollard, Special Agents.—Adverhaving the original dandruff germ tisement.

Girlish, Wrinkle-Free Skin Easy to Have

(From Pilgrim Magazine.)

(From Pilgrim Magazine.)

Since its remarkable astringent and tonic properties became known, clever women all over the world have been using the saxolite face bath to "tone up" their faces, remove wrinkles and draw flabby cheeks and neck back to normal. After using the solution, the face immediately feels much firmer. The skin tightens evenly all over the face, thus reducing lines and sagginess. The formula is: Powdered saxolite. I oz. dissolve in witch hazel, one-half pint.

Another wonderful facial beautifier and rejuvenator that has become quite a rage in the United States, as in Europe, is mercolized wax. Druggists report a great demand. The wax literally absorbs a sallow, blotchy or withered complexion, giving the fresh, vigorous, healthy-hued young skin underneath a chance to "breathe" and to show itself. Applying the wax at a isht, like cold cream, washing it off mornings, will completely renovate a poor complexion in a week or ten days. One ounce usually is sufficient.
